TABLE OF CONTENTS

Thank you for purchasing Centipede for the Nintendo® Game Boy® System.

Before starting, please read through this manual carefully, and keep this instruction booklet for future reference.

TABLE OF CONTENTS

Introduction	2	Scoring	12
Getting Started	3	High Scores	13
The Main Menu	4	Tips & Tactics	14
Playing Centipede	7	Caring for Your Game Pak	15
Creatures	9	Warranty Information	16

THE MAIN MENU

Once the *Centipede*™ Title Screen has appeared, you may press the Start Button to display the Main Menu Screen.

Once the *Main Menu* Screen appears, you may press the Control Pad Up or Down to select one of the following game modes:

One Player - Standard Centipede™.

Two-Player Alternating - Choose this mode to start a two-player game using one Game Boy . The two players take turns, and compete for the highest score.

Two-Player Competition (Game Link) - In this game, you and your opponent try to shoot the same creatures simultaneously. The one with the highest individual score wins.

THE MAIN MENU

Two-Player Team (Game Link) - The same idea as the competitive mode, except that you and your partner start with a combined total of 4 wands (lives), and you work together to achieve the highest possible combined score.

Press the Control Pad Right or Left to select the following skill levels:

Novice - This is the slowest level. To make it even easier, you won't see any Fleas until the third wave, and there are no Scorpions until the fifth wave.

Standard - Slightly faster than the Novice Level, but you begin at Wave 10.

..

THE MAIN MENU

Advanced - This level is faster yet, and begins at Wave 19. Both the Fleas and Scorpions are waiting for you the moment you start.

Expert - It doesn't get any faster - or harder - than this. The game begins with Wave 28. And the Fleas are everywhere. You have been warned!

When the desired game mode is selected and the game level you desire is displayed, press the Start Button to begin.

PLAYING CENTIPEDE

You start the game with three magic wands, which you use to spark the vicious critters that are constantly descending upon you. If the fleas, scorpions or centipedes manage to bite you, you become temporarily paralyzed and lose a wand. They all move fast, so you'll have to think and act even faster.

Player 1
Score + Lives

Player 2
Score + Lives

PLAYING CENTIPEDE

During play you may use the following controls:

Control Pad - Move the Control Pad to change the position of your magic wand and avoid the moving creatures.

Button A/B - Pressing Button A or B during play fires your magic wand.

Start Button - Press the Start Button at any time during play to pause the game. Pressing the Start Button once again takes the game out of pause and resumes play.

CREATURES

Centipede - The Centipede attacks from the top of the screen winding towards the bottom of the screen. When you spark any part of it with your wand, the segment you destroy turns into a harmless mushroom - but the segment behind it turns into the head of a new Centipede. When you hit every segment of a Centipede, it is destroyed.

The Centipede attacks in an unlimited number of distinct waves. In Waves 1 and 2, you view a complete centipede: one head attached to eight body segments. In Wave 3, the head is attached to seven body segments, and there is a single detached, free-roaming head. In Wave 4, the Centipede has a head and six body segments and there are two detached heads. At each level that follows, the segments continue to transform into heads until, by Wave 10, the

CREATURES

Centipede has nine independently - attacking heads.

Spiders - These arachnids are both friend and foe. They jump about the forest in an unpredictable manner and destroy any mushrooms they come in contact with. They will also destroy you if they collide with your magic wand.

Fleas - You'll start being bugged by fleas about the same time you've zapped away most of the mushrooms immediately around you. Fleas will drop straight down, creating mushrooms as they fall. You need to shoot the fleas twice to eliminate them.

Scorpions - These pests can ruin your day without even touching you. They scurry across the middle of the screen, poisoning every mushroom they touch. Should the Centipede touch a poison mushroom, look out! The first scorpion you see moves slowly, but as the battle continues, you'll see them more often moving faster and faster.

CREATURES

Mushrooms - The mushrooms that dot the forest floor are your best friends and worst enemies. While they shield you from the onslaught of insects, they also help speed the Centipede along by directing it one level closer to you. It takes four hits to completely eliminate a mushroom. If you are hit and lose a wand, all the partially destroyed mushrooms in the forest are magically restored.

Poison Mushrooms - These are a different shade than the normal mushrooms on your screen. When the Centipede bumps into one, the poison causes it to fall straight down through the forest, heading directly for you!

If the Centipede, Spider or Flea manage to catch you, you're "bitten" and become temporarily paralyzed and you lose one wand. You now must replay that wave until the Centipede is totally destroyed.

SCORING

During play, you may collect points in the following manner:

Points	Creatures
10	Centipede Body Segment
100	Centipede Head
200	Flea
300	Spider - from long range
600	Spider - from medium range
900	Spider - at close range
1000	Scorpion
1	Mushroom - eliminated
5	Mushroom - shot 1 to 3 times
1	Poison Mushroom - eliminated
5	Poison Mushroom - shot 1 to 3 times
5	Poison Mushroom - untouched
12000	Extra Wand

HIGH SCORE

When the game ends, if the current player's score is higher than any score currently on the high score list, the player will be able to enter their name on the high score list by doing the following:

CENTIPEDE	
MARK	10000
SIMON	6000
JOE	3000
ROBERT P	20630
ELLIOT	10000

- * Press the Control Pad Up to move forward through the alphabet.
- * Press the Control Pad Down to move backward through the alphabet.
- * Press the Control Pad Right to move to the next available letter position.
- * Press the Control Pad Left to move back one letter position.
- * Press the Start Button to enter the current name and exit the Name Entry Mode.

Note: Once the Game Boy unit is turned off, all of the player's high scores will be erased.

TIPS & TACTICS

- * Blast away mushrooms in a straight line upwards to create a "corridor." When the Centipede hits this gap, it will move straight down and can be easily destroyed.
- * Zap the Centipede heads to create new heads from the body segments left behind. Heads are worth ten times more points than the body parts, so you can acquire a higher score.
- * Since fleas don't appear until you destroy most of the mushrooms around you, set up a "mushroom shield" to keep this lightning-fast pest from striking, just don't shoot away the mushrooms closest to your wand.
- * Each creature makes its own distinctive sound. When you recognize these sounds, you'll know without looking what's attacking you and where it is located.
- * To earn more points, let the Centipede get as close possible before sparking it.

Good Luck!

CARING YOUR GAME PAK

- * Use your Centipede™ Game Pak only in your Nintendo® Game Boy® System.
- * Always make sure your Game Boy's power is off before inserting your Centipede™ Game Pak.
- * Store your Centipede™ Game Pak in its protective case when not in use.
- * Keep your Nintendo® Game Boy® System and Centipede™ Game Pak free from dust, water, and dirt, and keep them safe from direct sunlight, high heat, and extreme cold.
- * Never touch the terminals of your Centipede™ Game Pak.

[illegible]

To receive this warranty service:

- On the warranty period is:

This Warranty shall not apply if the PAK has been damaged by negligence, accident, unreasonable use, modification, tampering, or other causes unrelated to defective materials or workmanship.

If the PAK develops a problem requiring service after the 90 day period, you may contact the Majesco Sales, Inc. Technical Support Dept. at the phone number noted earlier. If the Majesco Sales Dept. is unable to solve the problem over the phone, you may be informed of the approximate cost for Majesco Sales, Inc. to repair or replace the PAK, and provided with a Return Authorization number. Record this number on the outside packaging of the defective PAK, and return the merchandise, FREIGHT PREPAID AND INSURANCE FOR LOSS OR DAMAGE, to Majesco Sales, Inc., and enclose a moneyorder payable to Majesco Sales, Inc. for the cost quoted to you. If after personal inspection, the Majesco Sales, Inc. Service Representative determines the PAK cannot be repaired, it will be returned and your payment refunded.
